Full Stack Developer Web & Mobile App Specialist

PROFESSIONAL SUMMARY

Full Stack Developer with 8+ years of experience building web and mobile apps that actually work. I've delivered 200+ WordPress websites and created apps now live on Google Play and Apple App Store. I specialize in rescuing failed projects - I completed a 5-app transportation system in 3 months that other developers couldn't finish in 3+ years. I use modern tech like Flutter, React, Next.js, and AI tools to build fast and deliver faster. My apps handle real users, real data, and real business problems. Whether it's a caregiver training platform or an e-commerce store, I build it, deploy it, and make sure it works.

WORK EXPERIENCE

Full Stack Mobile & Web Developer

2023 - Present | Compassionate Caregivers, US

- Flutter Mobile App (Live):** Built comprehensive caregiver training platform with Firebase backend deployed on Google Play Store, Apple App Store, and web platform
- Transportation Ecosystem (Live):** Rescued failing 5-app system, completed in 3 months using Next.js, Supabase, TypeScript including Facility, Dispatcher, Driver, and Admin applications
- Advanced features:** Implemented secure authentication, real-time updates, wheelchair type selection, custom per-facility pricing, and admin-controlled rate management
- Cross-platform deployment:** Successfully deployed applications across web, iOS, and Android platforms with consistent user experience
- Client impact:** Received exceptional praise from ownership and staff for delivering what was deemed "impossible" by previous developers

Full Stack Developer (Part-time)

2024 - Present | KFresh Super Market, Canada

- E-commerce Platform (Live):** Built full-stack marketplace using Next.js, Supabase, TypeScript with customer storefront and admin dashboard
- Custom functionality:** Developed specialized features for Afro-Caribbean marketplace including inventory management, order processing, and customer portal
- Admin systems:** Created comprehensive dashboard for product management, sales analytics, and customer relationship management
- Performance optimization:** Implemented efficient data handling and user experience improvements for seamless shopping experience

Senior Web Developer & Digital Marketing Specialist

2016 - 2023 | Ineffable Design, US

- High-volume development:** Built and deployed 200+ professional WordPress websites across various industries over 7+ years
- Digital marketing campaigns:** Managed Google Ads campaigns for multiple clients including R&J Medical, achieving improved ROI and lead generation
- SEO optimization:** Implemented comprehensive SEO strategies resulting in improved search rankings for dozens of client websites
- Client relationship management:** Maintained long-term partnerships with key clients, leading to referrals and expanded project scope
- Team collaboration:** Worked closely with design and marketing teams to deliver integrated solutions

KEY PROJECTS & ACHIEVEMENTS

Key Achievement: Built and deployed 8+ live applications across web and mobile platforms, including a Flutter app on both App Stores and a 5-app transportation ecosystem completed in 3 months that previous developers couldn't finish in 3+ years.

- Compassionate Caregivers Training App:** Flutter mobile app with Firebase backend, live on both App Stores with secure training modules, skill assessments, and certification tracking
- Transportation Management Ecosystem:** 5 interconnected web applications (Next.js + Supabase + TypeScript) with real-time synchronization
- KFresh E-commerce Platform:** Full-stack marketplace with customer storefront and admin dashboard using modern tech stack
- Website Portfolio:** Successfully delivered 200+ WordPress websites across various industries
- Digital Marketing Campaigns:** Ongoing Google Ads management with measurable ROI improvements
